PROFILE

Front-End Developer with 3+ years of freelance experience and a current full-time role at The Arab Contractors, building production-grade web and mobile applications with React.js, Next.js, and Flutter. Shipped measurable results across every role — 25% faster load times, 40% reduction in client response times, and 5+ live production sites — and led the front-end of an award-winning graduation project recognised nationally by Alexandria University.

EXPERIENCE

Front-End Developer · The Arab Contractors

Cairo, Egypt · Jan 2026 – Present

- ▶ Migrating legacy PHP/HTML codebases across internal systems to React.js and Flutter, measurably improving load performance and reducing long-term maintenance overhead
- ▶ Leading UI/UX modernisation of the Arab Contractors Club mobile app, enforcing WCAG 2.1 AA accessibility standards across all redesigned screens
- ▶ Rebuilding front-end architecture into a modular React.js component library of 30+ reusable components, accelerating future feature delivery
- ▶ Delivering cross-platform iOS and Android feature parity using Dart/Flutter

Stack: React.js · Flutter · Dart · Tailwind CSS · Git

Freelance Front-End Developer · Self-employed

Remote · Jan 2023 – Jan 2026

- ▶ Reduced page load times by 25% on high-traffic e-commerce sites (Nour Lenses store) via lazy loading and image optimisation
- ▶ Automated lead capture using RESTful API integrations, cutting client inquiry response times by 40%
- ▶ Translated Figma mockups into pixel-perfect responsive layouts across 5+ client projects; maintained 100% on-time delivery over 3 years
- ▶ Delivered scroll-triggered GSAP animations at 60 FPS for a luxury hospitality client, maintaining full performance budgets
- ▶ Improved organic rankings for 3 client sites via semantic HTML restructuring and technical SEO
- ▶ Built and launched 5+ live production sites: nourlensesstore.com · bedireg.com · heritage.villas · inciflexegypt.com

Stack: React.js · Next.js · JavaScript · TypeScript · Shopify · WordPress · GSAP · REST APIs · Vercel · Git

iOS Development Trainee · Information Technology Institute (ITI)

Egypt · Aug 2024

- ▶ Built a full-featured iOS food-ordering app in Swift/UIKit with MVC architecture and async data handling as capstone project

Stack: Swift · Xcode · UIKit · iOS SDK

PROJECTS

Soul Support – AI Mental Health App · Flutter · Graduation Project · 1st Place, Alexandria University

- ▶ Led all front-end development for an AI-powered mental health platform serving patients and therapists
- ▶ Delivered core features: mood tracking, journaling, music/exercise modules, appointment calendar, and analytics charts
- ▶ Optimised widget trees, improving screen load time by 25%; designed custom transition animations for all major screens
- ▶ Awarded 1st place by faculty panel; recognised by the Computer Scientific Society (CSS) at AASTMT

Personal Portfolio · Next.js · React.js · Tailwind CSS · GSAP

- ▶ Achieved 100/100 Lighthouse SEO score with GSAP-powered animations and an API-driven contact form
- ▶ Reduced form submission handling time by 20% through API request optimisation — live at maliikx-dev.vercel.app
